UNIVERSITY OF BARCELONA
FACULTY OF MEDICINE

Department of Urology
Prof. José M.ª Gil-Vernet

8th
International
Course
of Urology

Directed by
J. M. GIL-VERNET and W. GREGOIR

Barcelona, 1981, June the 22nd through the 26th.
The General Topic

**Advances in Urology**

will be organized and directed by José M.ª Gil-Vernet and Willy Gregoir,

Professors of Urology, with the following contributors:

A. CARALPS (Spain)
P. CARRETERO (Spain)
G. CHISHOLM (Great Britain)
J. M. DUBERNARD (France)
L. GIULIANI (Italy)
R. GOSALBEZ (Spain)
H. HENDREN (U.S.A.)
R. HOHENFELLNER (Germany)
A. JARDIN (France)
R. D. JEFFS (U.S.A.)
R. KUSS (France)
N. LOTPAKIN (U.S.S.R.)
J. MONTERO (Spain)
J. M. RIUS (Spain)
F. ROMERO (Spain)
D. RUANO (Spain)
J. TRAEGGER (France)
M. F. TRAPEZNIKOVA (U.S.S.R.)
A. C. USON (Spain)
L. WAGENKNECHT (Germany)
W. VAHLENSIECK (Germany)
G. WILLIAMS (Great Britain)

and the staff of the School of Urology, Barcelona.

**GENERAL INFORMATION**

The secretary of the Department of Urology, Medical School, University of Barcelona.
Calle Casanova, 143 - Barcelona-36 (Spain) - Tel. (93) 254 45 56.

The inscription fee is 14,000 Ptas. or 200 US dollars. There is a special price of Ptas. 7,000 or 100 US dollars for Medical Residents.

The 8th International Course of Urology will take place at the Hotel Princesa Sofia (Plaza P. Pio XII, s/n) where the operations realized in the Medical School Hospital of Barcelona will be retransmitted by colour television and projected in a giant screen.

Reception of attendants and documentation delivery will take place at the same Hotel on Sunday, 21st of June, from 4 p.m. to 9 p.m. hours. On Monday 22nd the office of the course will be opened from 8.00 a.m.

The inscription will be limited to 1,200 attendants.
OPERATIVE SESSIONS

Monday, the 22nd June at 8 a.m.:

Dr. J. M. Gil-Vernet  Spleno-renal arterial anastomosis for hypertension.
                    Lumbar retroperitoneal approach. Renal hypothermia.
Dr. J. M. Gil-Vernet  Transverse ureterolithotomy.
Dr. J. M. Gil-Vernet  Fistula vesico-vaginal
Dr. J. M. Gil-Vernet  Microsurgical transuretero-ureterostomy.
Dr. A. C. Usón      Hypospadias.

Tuesday, the 23rd at 8 a.m.:

Dr. J. M. Gil-Vernet  Testicular autotransplant.
Dr. J. M. Gil-Vernet  Transverse pyelolithotomy by posterior vertical lumbotomy.
Dr. J. M. Gil-Vernet  Extra-mucosal vaso-vasostomy; microsurgery.
Dr. Robert D. Jeffs  Vesical extrophy. Cervico-urethroplasty.
Dr. W. Gregoir      Hemostatic adenomectomy.

Wednesday, the 24th at 8 a.m.:

Dr. J. M. Gil-Vernet  Ex situ horseshoe kidney surgery in a child. Autotransplant.
Dr. J. M. Gil-Vernet  Staghorn calculus and tridimensional radiology.
Dr. J. M. Gil-Vernet  Hypospadias.
Dr. W. Gregoir      Anterior urethroplasty.

Thursday, the 25th at 8 a.m.:

Dr. J. M. Gil-Vernet  Orthotopic kidney graft from a living donor.
Dr. J. M. Gil-Vernet  Partial cystectomy.
Dr. H. Hendren       Megaureter.
Dr. W. Gregoir      Trans-urethral resection of the prostate.

Friday, the 26th at 8 a.m.:

Dr. J. M. Gil-Vernet  Perineo-scrotal urethroplasty, first stage.
Dr. J. M. Gil-Vernet  Perineo-scrotal urethroplasty, second stage
Dr. J. M. Gil-Vernet  Penile prosthesis.
Dr. J. M. Gil-Vernet  Urinary undiversion.
Dr. W. Gregoir      Anti-reflux procedure.
Dr. W. Gregoir      Vesical extrophy, trigono-colonic implantation.
COMMUNICATIONS AND UPDATES

Monday, the 22nd: 3 to 4.30 pm. Movies, see attached program.

At 4.30 pm.

Dr. A. Caralps  Urinary lithiasis, as a complication of the treatment of terminal renal failure.
Dr. W. Vahlensieck  Pathogenesis and prevention of urinary lithiasis.
Dr. L. Giuliani  Urinary stones: diagnostic and therapeutic considerations.
Dr. A. Caralps  Medical treatment of urinary lithiasis.
Dr. J. M. Gil-Vernet  Tridimensional radiology.
Dr. D. Ruano  Valvular-sphincteric systems in the spermatic veins.
Dr. A. C. Usón  Varicocele: update.
Dr. N. Lopatkin  Sapheno-testicular anastomosis in the renal venous hypertension and varicocele.
Dr. A. Jardin  Indications, treatment, and results in varicoceles.
Dr. W. Gregoir  Uretero-ureterostomies.

Tuesday, the 23rd: 3 to 4.30 pm. Movies.

At 4.30 pm.

Dr. R. D. Jeffs  Surgical repair of vesical extrophy.
Dr. W. Gregoir  Late results of trigono-colonic implantations.
Dr. R. D. Jeffs  Urinary undiversion.
Dr. R. Hohenfellner  Urinary undiversion
Dr. H. Hendren  Urinary undiversion.
Dr. J. M. Gil-Vernet  Urinary undiversion.
Dr. A. C. Usón  Hypospadias. One stage repair.
Dr. H. Hendren  Surgery of the megaureter.
Dr. R. Gosalbez  Congenital ureteral valves.
Dr. H. Hendren  Surgery of the ureterocele.

Wednesday, the 24th: 3 to 4.30 pm. Movies.

At 4.30 p.m.

Dr. R. Küss  Late results of the surgery of the hydrenephrosis.
Dr. A. Jardin  Surgery for cystitis in females.
Dr. N. Lopatkin  Renal vein stenosis.

LIST OF MOVIES TO BE PROJECTED DURING THE COURSE

ADRENALS
Adrenal surgery.

KIDNEYS
Renal isotransplant in men.
Pyelolithotomy for staghorn calculus.
Renal hypothermia.
Nephrectomy on a transplanted kidney.
Ectopic kidney surgery.
Nephropexy and kidney reduction through a lumbar posterior approach.
Right renal vein surgery.
Renal surgery through a lumbar posterior approach in kyphoscoliotic patients.
Surgery of pelvic and caliceal stones.
Symphyssectomy in horseshoe kidney.
Partial nephrectomy in horseshoe kidney.
Renal surgery for TB.
Ex situ renal surgery.
Intraoperative and tridimensional kidney roentgenology.
Orthotopical renal graft.
Conservative surgery for cancer of the kidney.
Radical surgery for cancer of the kidney.
Bench surgery and autotransplant in a horseshoe kidney.
Minimal nephrostomy.
Renal transplant.
Enlarged, radical nephrectomy for cancer.
Radical nephrectomy with previous lymphadenectomy for cancer.
Percutaneous puncture nephrostomy.
Renal hypothermia.
Radical nephrectomy for cancer.
Pathogenesis of the lithiasis.

Dr. J. M. Gil-Vernet
PELVIS
AND URETER

Radiology of the collecting system in transplanted kidneys with pyelo-pyelo-
lostomy.
Total replacement of the pelvis and ureter with ileum.
Microsurgery for hydronephrosis.
Transverse incision of the pelvis.
Submucosal ureterovesicoplasty.
Microsurgery in uretero-ureterostomy.
Total replacement of the ureter with ileum.
Megaureter reconstruction with ileo-
caecocystoplasty.
Retrocaval ureter.
U-ureteroplasty. Bilateral partial substi-
tution for uterine neoplastic com-
pression.
Surgery of the ureteral stone.
Microsurgical crossed-uretero-urete-
rostomy.
Uretero caliceal anastomosis.
Transperitoneal ureterosigmoidostomy
in children.
Extravesical antireflux ureteroplasty.
Uretero-ureterostomies.
Surgery of the ureterocele.
Vesical extrophy. Cervico-urethro-
plasty.

BLADDER

Total bladder replacement for cancer,
techniques 1, 2 and 3.
Colocystoplasty.
Urachal surgery.
Surgery for vesico-vaginal fistula.
Total cystectomy.
Retroperitoneal lymph-node dissection
for bladder cancer.
Reflex diagnosed by voiding cysto-
urethrogram.
Radical cystectomy for bladder tu-
mour.
TUR for bladder neck pathology.

Dr. G. Williams
Dr. W. Vahlensieck
Dr. W. Vahlensieck
Dr. W. Vahlensieck
Dr. W. Vahlensieck
Clinical treatment and history of a rare malformation.
The cure of urinary incontinence with fascia lata.

PROSTATE
Retropubic total prostato-vesiculectomy.
Pelvic lymphadenectomy and total prostatectomy.
TUR for BPH.
Hemostatic adenomectomy.

URETHRA
Surgery for acquired lesions of the anterior urethra.
Surgery for acquired lesions of the posterior urethra.
Glandular hypospadias.
Penile hypospadias.
Perineoscrotal hypospadias.
Reconstruction of the urethra, modified Dennis-Brown.
Hypospadias surgery.
Silicone and silver penile prosthesis.
Urethrotomysostomy.
One-step hypospadias reconstruction.
Endoscopic urethrotomy.

REPRODUCTIVE SYSTEM
Microsurgery in male infertility.
Experimental testis allograft.
Testicular allograft in men.
Microsurgical vaso-vasostomy.
Total emasculation.
Varicocele.
Testicular autotransplant.

VASCULAR TOPICS
Aneurysm and AV fistula in a solitary kidney.
Extraperitoneal approach to the splenic pedicle.
Autotransplant for renal artery stenosis.
Lumbar spleno-renal arterial anastomosis for hypertension.
Ex corpore surgery for vascular indications.
Extraperitoneal spleno-renal venous anastomosis for portal hypertension.
Surgery of the arterio-venous fistula using renal hypothermia.

MISCELLANEOUS
Techniques for tumour suction and biopsy.
Parathyroid autotransplant.
Hyperparathyroidism in urology
Urological microsurgery.
Radiologic study of the dynamics of the urinary system, normal and pathologic.
