

UNIVERSITY OF BARCELONA
MEDICAL SCHOOL

University Department of Urology
Prof. J. M.^a Gil-Vernet

Vllth
international
course
of
urology

under the direction of Prof. José M.^a Gil-Vernet

Barcelona, from the 5th to the 9th of April 1976

dealing on

RECENT ADVANCES IN UROLOGY

directed and organized by
Professors J. M. GIL-VERNET and W. GREGOIR

with the collaboration of

P. ABOULKER (Francia)
A. CARALPS (Spain)
J. Y. DWOSKIN (U.S.A.)
S. GIL VERNET (Spain)
R. GOSALBEZ (Spain)
W. GREGOIR (Belgium)
H. HASCHECK (Austria)
E. HRADEC (Tchecoslovaquia)
R. HOHENFELLNER (Germany)
R. KÜS (France)
W. LUTZEYER (Germany)
L. REVERT (Spain)
D. RUANO (Spain)
A. STEG (France)
I. THOMPSON (U.S.A.)
A. USON (U.S.A.)
R. H. WHITAKER (Great Britain)
V. ZVARA (Tchecoslovaquia)

and the Professors and Doctors of the University Department and Professional School of Urology.

GENERAL INFORMATION

The secretary of the Department of Urology, Medical School, University of Barcelona, Calle Casanova, 143. - Barcelona-11 (Spain) - Tel. (93) 254 45 56.

The inscription fee is 6.000 Ptas. or 100 US dollars until the 28th of February 1976. After that date the inscription fee will be 7.000 pesetas or 120 US dollars.

The 7th International Course will take place in the PALACIO DE CONGRESOS DE MONTJUICH, (Conference room n.º 7) where the operations realized in the Medical School Hospital of Barcelona will be retransmitted colour television and projected in a giant screen.

Reception of participants and documentation delivery will take place in Palacio de Congresos on Sunday 4th of April from 19.00 hours. On Monday 5th, Secretary of the course will be installed at mentioned Palacio de Congresos from 8.00 a.m. to 20.00 p.a. to attend the participants.

OPERATIVE SESSIONS

Monday, the 5th of April, at 8 a.m.:

Dr. J. M. ^e Gil-Vernet	Nephrectomy through a vertical lumbar incision.
Dr. J. M. ^e Gil-Vernet	Renal spelectomy for tuberculosis.
Dr. J. M. ^e Gil-Vernet	Transverse intrasinus pyelotomy through a vertical lumbar incision.
Dr. J. M. ^e Gil-Vernet	Posterior urethroplasty for traumatic stenosis. First stage.
Dr. J. M. ^e Gil-Vernet	Posterior urethroplasty for traumatic stenosis. Second stage.
Dr. J. M. ^e Gil-Vernet	Nephropexy by posterior vertical approach.
Dr. W. Grégoir	Extravesical plasty for reflux.

Tuesday, the 6th at 8 a.m.:

Dr. J. M. ^e Gil-Vernet	Extracorporeal renal surgery.
Dr. J. M. ^e Gil-Vernet	Juxtavesical ureterolithotomy.
Dr. W. Grégoir	Prostatic adenomectomy.
Dr. J. Y. Dwoskin	Hypospadias.

Wednesday, the 7th at 8 a.m.:

Dr. J. M. ^e Gil-Vernet	Splenorenal anastomosis for arterial hypertension. Extraperitoneal lumbar approach. Renal hypothermia.
Dr. J. M. ^e Gil-Vernet	Crossed uretero-ureterostomy for stenosis or ureteral fistula after gynecologic operation.
Dr. J. M. ^e Gil-Vernet	Transversal uretero-lithotomy.
Dr. W. Grégoir	Reconstruction of a congenital megaureter.
Dr. J. Y. Dwoskin	Subdartos pouch orchidopexy.

Thursday, the 8th at 8 a.m.:

Dr. J. M. ^e Gil-Vernet	Vesico-vaginal fistula.
Dr. J. M. ^e Gil-Vernet	Lowering of the right renal vein.
Dr. J. M. ^e Gil-Vernet	Balanic hypospadias.
Dr. J. M. ^e Gil-Vernet	Removal of a staghorn stone through an intrasinus pyelotomy.
Dr. W. Grégoir	Renal staghorn stone.

Friday, the 9th at 8 a.m.:

Dr. J. M.^e Gil-Vernet

Renal allotrasplantation.

Dr. J. M.^e Gil-Vernet

Reconstruction of a penile hypospadias. First stage.

Dr. J. M.^e Gil-Vernet

Reconstruction of a penile hypospadias. Second stage.

Dr. J. M.^e Gil-Vernet

Removal of a caliceal stone by intrasinusul incision.

Dr. W. Grégoir

Vesical diverticula.

CONFERENCES

Monday, the 5th, at 17 p.m.:

Dr. R. Küss

Indications for embolization in Urology.

Dr. W. Lutzeyer

Ultrasonic lithotripsy: experimental bases and clinical experience.

Dr. A. C. Usón

One stage reconstruction of penoscrotal hypospadias.

Dr. J. Y. Dwoskin

Reconstruction of the urinary tract after loop cutaneous ureterostomy or pyelostomy.

Dr. A. Caralps

Surgery of renal insufficiency.

Dr. A. Steg

Uretero-vesical implantation and uretero-intestinal anastomosis. A new procedure. Technical results.

Dr. D. Dufour

Replacement of the ureter by a prothesis.

Dr. W. Grégoir

Avascular nephrotomy.

Dr. J. M.^e Gil-Vernet

Extracorporeal renal surgery.

Projection of films.

Tuesday, the 6th.

From 16 to 17 p.m.: Projection of films.

At 17 p.m.

Dr. W. Lutzeyer

Treatment of the carcinoma of the penis with Bleomycine.

Dr. R. H. Whitaker

Diagnosis of doubtful obstructions of the renal excretory system.

Dr. A. Caralps

Medical treatment of urinary lithiasis.

Dr. H. Hascheck

Cryosurgery of the prostate.

Dr. A. Steg

Percutaneous puncture and ecotomography in the diagnosis and treatment of renal cysts.

Dr. W. Grégoir	Uretero-vesical reimplantation. Technical details.
Dr. A. Jardin	Kidney hamartomas.
Dr. J. Y. Dwoskin	The two-stage Belt urethroplasty.
Dr. J. M. ^o Gil-Vernet	New way of approach to the splenic vessels in arterial and venous splenorenal anastomosis.
Dr. J. M. ^o Gil-Vernet	Substitution of the renal artery, its bifurcation and principal branches in the surgery of aneurisms.

Projection of films.

Wednesday, the 7th.

From 16 to 17 p.m.: Projection of films.

At 17 p.m.:

Dr. R. H. Whitaker	Treatment of posterior uretral valves.
Dr. A. Steg	Treatment of vesico-vaginal fistulae after the Chasser-Moir technique.
Dr. A. Usón	Surgical treatment of primary incontinence in the woman by hypoplasia or partial aplasia of the urethra.
Dr. E. Hradec	Suprarenal surgery of urologic interest.
Dr. A. Caralps	Radiologic symptoms of renal rejection.
Dr. A. Steg	Summary of the new pathogenic concepts about cystic and polycystic diseases of the kidney.
Dr. W. Grégoir	Quantitative chemical and cristallographic analysis of urinary stones; their utility in lithiasic prevention.
Dr. D. Ruano	Normal obstruction and recanalisation of the ureter in the human embryo. Its relation with the stenosis and ureteral valves and congenitals.
Dr. J. Y. Dwoskin	Subdartos pouch orchidopexy.
Dr. J. M. ^o Gil-Vernet	Lowering of the right renal vein.
Dr. J. M. ^o Gil-Vernet	Minimum nephrostomy.

Projection of films.

Thursday, the 8th.

From 16 to 17 p.m.: Projection of films.

Dr. W. Zvara	Progress in the treatment of testicular tumors.
Dr. A. C. Usón	Surgical treatment of sexual impotence in the man.
Dr. E. Hradec	Vesico-ureteral reflux in the child. Pathogeny, significance and treatment.
Dr. L. Revert	Experiences in home dialysis.
Dr. H. Hascheck	Asepsy and antisepsy in Urology.
Dr. R. Hohenfellner	Temporal selective occlusion of the renal artery.
Dr. R. Gosalbez	Y cutaneous ureterostomy in neurogenic bladders in children.

Dr. I. Thompson	Use of the renal capsule for repair of the pyeloureteral junction.
Dr. J. Y. Dwoskin	Genital reconstruction in patients with adrenogenital syndrome.
Dr. J. M. ^o Gil-Vernet	New orientations in vasculo-renal arterial hypertension surgery.

Projection of films.

Friday, the 9th.

From 16 to 17 p.m.: Projection of films.

At 17 p.m.

Dr. I. Thompson	The Z-plasty in urinary surgery.
Dr. A. C. Usón	Actual treatment of Wilms tumors.
Dr. P. Aboulker	Surgical treatment of chordee without hypospadias.
Dr. W. Grégoir	Surgery of vesical diverticulae.
Dr. H. Hascheck	Electrohydraulic lithotripsy.
Dr. R. Hohenfellner	Total prostatectomy.
Dr. I. Thompson	Our position in the problem of urinary diversion.
Dr. J. M. ^o Gil-Vernet	Interposition of the Bahuin valve in the treatment of vesical extrophy.

Distribution of certificates.

LIST OF FILMS TO BE PROJECTED DURING THE COURSE

Subject SUPRARENAL:	Suprarenal surgery.	Dr. J. M. ^o Gil-Vernet
Subject KIDNEY:	Human renal isotrasplantation.	Dr. J. M. ^o Gil-Vernet
	Intrasinusal surgery of staghorn stones.	Dr. J. M. ^o Gil-Vernet
	Controlled renal hypothermia.	Dr. J. M. ^o Gil-Vernet
	Renal trasplantectomy.	Dr. J. M. ^o Gil-Vernet
	Surgery of the ectopic kidney.	Dr. J. M. ^o Gil-Vernet
	Nephropexy by vertical posterior lumbar incision.	Dr. J. M. ^o Gil-Vernet
	Partial medio-renal nephrectomy.	Dr. J. M. ^o Gil-Vernet
	Lowering of the right renal vein.	Dr. J. M. ^o Gil-Vernet
	Renal surgery in ciphoscoliosis through a posterior vertical incision.	Dr. J. M. ^o Gil-Vernet

Subject
**KIDNEY PELVIS
AND URETER:**

Surgery of pyelic and caliceal lithiasis.	Dr. J. M. ^o Gil-Vernet
Surgery of the horseshoe kidney.	Dr. J. M. ^o Gil-Vernet
Renal spelectomy for tuberculosis.	Dr. J. M. ^o Gil-Vernet
Nephrectomy and lymphadenomectomy for cancer.	Dr. J. M. ^o Gil-Vernet
Extracorporeal renal surgery.	Dr. J. M. ^o Gil-Vernet
Renal hypothermia.	Dr. W. Grégoir
Avascular nephrotomy.	Dr. W. Grégoir
Diagnosis of the obstruction in dilated ureters.	Dr. R. H. Whitaker
Cinefluoroscopy of the excretory system in trasplanted kidneys after pyelo-pyelic anastomosis.	Dr. J. M. ^o Gil-Vernet
Total substitution of the renal pelvis by an ileal segment.	Dr. J. M. ^o Gil-Vernet
Microsurgery of hydronephrosis.	Dr. J. M. ^o Gil-Vernet
Surgery of tuberculous pyelic retraction.	Dr. J. M. ^o Gil-Vernet
Transversal incision of the pelvis.	Dr. J. M. ^o Gil-Vernet
Submucosal ureterovesicoplasty.	Dr. J. M. ^o Gil-Vernet
Microsurgery of uretero-ureteral anastomosis.	Dr. J. M. ^o Gil-Vernet
Crossed uretero-ureteral anastomosis by uretero-vaginal fistula.	Dr. J. M. ^o Gil-Vernet
Total ureteral substitution by ileon.	Dr. J. M. ^o Gil-Vernet
Partial substitution of congenital megalo-ureters by an ileo-caecal segment.	Dr. J. M. ^o Gil-Vernet
Retrocaval ureter.	Dr. J. M. ^o Gil-Vernet
U ureteroileoplasty. Bilateral partial substitution for neoplastic compression.	Dr. J. M. ^o Gil-Vernet
Transversal ureterolithotomy.	Dr. J. M. ^o Gil-Vernet
Surgery of ureteral lithiasis.	Dr. J. M. ^o Gil-Vernet
Ectopic ureterocele.	Dr. W. Grégoir
Megaureter.	Dr. R. Hohenfellner

Subject
BLADDER:

Ultrasonic	Lithotripsy:	experimental	Dr. W. Lutzeyer
bases.			

Electrohydraulic lithotripsy.	Dr. W. Lutzeyer
Total substitution for bladder cancer. Techniques I, II and III.	Dr. J. M. ^o Gil Vernet
Colocystoplasty.	Dr. J. M. ^o Gil Vernet
Interposition of the Bauhin valve in the treatment of bladder extrophy.	Dr. J. M. ^o Gil Vernet
Surgery of the urachus.	Dr. J. M. ^o Gil Vernet
Surgery of the bladderneck in the child.	Dr. J. M. ^o Gil Vernet
Subtotal cystectomy.	Dr. J. M. ^o Gil Vernet
Operation for vesico-vaginal fistula.	Dr. J. M. ^o Gil Vernet

Subject
PROSTATE:

Total perineal prostatectomy.	Dr. I. Thompson
Criosurgery of the prostate.	Dr. H. Hascheck
Total prostatectomy.	Dr. R. Hohenfellner
Transcervical adenomectomy.	Dr. J. M. ^o Gil-Vernet
Total retropubic prostatovesiculectomy.	Dr. J. M. ^o Gil-Vernet

Subject
URETRA:

Surgery of acquired lesions of the an- terior urethra.	Dr. J. M. ^o Gil-Vernet
Surgery of acquired lesions of the pos- terior urethra.	Dr. J. M. ^o Gil-Vernet
Balanic hypospadias.	Dr. J. M. ^o Gil-Vernet
Penile hypospadias.	Dr. J. M. ^o Gil-Vernet
Perineoscrotal hypospadias.	Dr. J. M. ^o Gil-Vernet

Subject
GENITALS:

Microsurgery of male infertility.	Dr. J. M. ^o Gil-Vernet
Testicular allotransplantation. Experimental.	Dr. J. M. ^o Gil-Vernet
Anastomosis of the vas deferens by microsurgery.	Dr. J. M. ^o Gil-Vernet
Total emasculation.	Dr. J. M. ^o Gil-Vernet
Surgical correction of true hermaphro- ditism.	Dr. J. M. ^o Gil-Vernet

Subject

VASCULAR:

Aneurismorrhaphy of the renal artery.

Dr. J. M.^o Gil-Vernet

Renal hypothermic control by a 'in situ' renal perfusion in vasculo-renal surgery.

Dr. J. M.^o Gil-Vernet

~~Peripheral~~ **Peripheral** renal revascularisation with ileal graft.

Dr. J. M.^o Gil-Vernet

Aneurism and arteriovenous renal communication in the single kidney.

Dr. J. M.^o Gil-Vernet

Extraperitoneal approach to the splenic hilum.

Dr. J. M.^o Gil-Vernet

Autotrasplantation for renal arterial stenosis.

Dr. J. M.^o Gil-Vernet

Extraperitoneal splenorenal arterial anastomosis for hypertension.

Dr. J. M.^o Gil-Vernet

Extraperitoneal splenorenal venous anastomosis for portal hypertension.

Dr. J. M.^o Gil-Vernet

Subject

MISCELANEOUS:

Trigonal tubulisation in the treatment of incontinence.

Dr. I. Thompson

Use of the epiploon in the treatment of retroperitoneal fibrosis.

Dr. R. H. Whitaker

Urinary diversion by a colic conduit.

Dr. R. Hohenfellner

Trigono-intestinal implantations.

Dr. W. Grégoir

Simultaneous translation into English, French, German, Italian and Spanish languages

The operative sessions will be transmitted in colour television and projected in a giant screen to the Palacio de Congresos de Montjuich
